To Whom It May Concern:

I am writing to communicate our general experience with the Prowess Treatment Planning System at the Tate Cancer Center of Baltimore Washington Medical Center in Glen Burnie, MD. The medical center is an affiliate of the University of Maryland Medical System.

We have been using the Prowess planning system for our IMRT planning since the Spring of 2005. The system is very easy to use and very reliable. In addition, our IMRT plans are much more efficient than they were prior to getting Prowess. The customer service is also exceptional.

If you have any questions, please do not hesitate to contact me at 410-553-8102.

Sincerely,

Matthew Earl, PhD
