To Whom It May Concern:

This letter is to confirm that I have been an active user of the Prowess Panther treatment planning system for the past five years. My initial experience with treatment planning using Prowess came at the University of Maryland School of Medicine where I was an associate professor. We have recently installed Prowess at my new employer, the Swedish Medical Center in Seattle, Washington. Overall, I have been very pleased with the performance of the Prowess Panther system, and I have received excellent customer support.

Sincerely,

A handwritten signature in cursive script that reads "David Shepard".
